

Mi-Tech is Open

As part of the Defense Industrial Base Critical Infrastructure Workforce as defined by the U.S. Department of Homeland Security's Cybersecurity & Infrastructure Security Agency (CISA), Mi-Tech will maintain its normal work schedule as part of the federal government's COVID-19 response.

Notice to Visitors

Due to increasing concern about COVID-19, effective immediately, Mi-Tech is allowing only scheduled site visits, including deliveries, that are necessary to business operations.

If you have a standing day that you visit Mi-Tech, we ask that you please discontinue these visits for the immediate future unless you make an appointment with your contact.

All unplanned and unscheduled guest visits are prohibited at this time until further notice.

If you have an appointment, you will notice our extra efforts to keep our employees and facilities safe. In addition to increased cleaning and sanitizing, we are limiting direct contact with others and refraining from shaking hands.

Most importantly, if you are not feeling well or unsure about coming to our facility, please reach out to us via phone or email instead of a personal visit.

We appreciate your patience and understanding as we work through this uncertain time together.
